

We believe every family and every business deserves affordable legal and identity theft protection. Including you. No matter how traumatic or trivial your situation, and no matter how large or small your business, we are here to help.

Why would you need a legal plan for your business or your family?

Legal plans can help you with a variety of everyday situations in your business such as:

-Hiring/Firing, Small Claims, Equipment Leases, Debt Collection, Customer Complaints, Vendor Issues, Contract Questions/Issues, Zoning, or Worker's Compensation, and much more!

And with things in your personal life like:

-Creating/Updating your Will, Buying or Selling Real Estate, Warranty Issues, Landlord/Tenant Issues, Disability, Traffic Related Issues, Child Support/Custody Issues, Bankruptcy/Foreclosure, or any other life event that comes along where you would like to speak with your attorney!

Why should you protect your family's and your employees' identities?

Did you know that only 17% of Identity Theft in 2016 was related to finances? Thieves are looking to use your personal identity and those of your family and employees for a variety of reasons including:

-Gaining Access to Personally Identifiable Information in your Customer or Employee Files, Getting a Job, Filing for Tax Refunds or other types of Government Benefits, Pursuing Criminal Activity (DUI/DWI, Terrorism, Drug Related Offenses, etc.), and much more!

The Consequences of Identity Theft can harm your business, your family, and your employees in many ways including:

-Lost Income and Productivity in your Workforce, Loss of Reputation/Goodwill in your Community, Inability to Maintain Professional Licensing, Potential for Governmental Fines and Penalties resulting from Data Breaches, Increasing Civil

Legal Liability resulting from Data Breaches at Businesses that lack Employee Education regarding Identity Theft/Data Protection Policies and Procedures.

By choosing to implement IDShield through the SOCA plan for Identity Theft Protection, you have the opportunity to take advantage of the following benefits:

-Identity Theft Workshops/"Lunch n Learns" designed to provide education to you and your employees regarding the threat of Identity Theft.

-Identity Theft Protection Policies and Education designed specifically for your business to help mitigate potential liability resulting from a data breach in your business.

-Dedicated Business Solutions staff that deal with businesses just like yours everyday and who understand and accommodate the unique needs of your business.
